To: The Shareholders of Johore Tin Berhad

Dear Sir/Madam,

PROPOSED SHARE BUY-BACK MANDATE

1. INTRODUCTION

The Company had on 16 June 2020 announced its intention to seek shareholders' approval at the forthcoming 19th AGM for the Company to purchase its shares of up to ten per centum (10%) in the entire issued and paid-up capital of the Company at any given point in time. The Proposed Share Buy-Back is subject to compliance with Section 127 of the Act and any prevailing laws, rules and regulations, orders, guidelines and requirements issued by the relevant authorities ("**Prevailing Law**") at the time of the purchase.

The purpose of this Statement is to provide you with the relevant details of the Proposed Share Buy-Back and to seek your approval for the ordinary resolution pertaining thereto to be tabled at the forthcoming 19th AGM which be held on Monday, 10th August 2020. ("**AGM2020**")

2. DETAILS OF THE PROPOSED SHARE BUY-BACK

2.1 Proposed Share Buy-Back Mandate

The Board proposes to seek the shareholders' approval for the authority to purchase the Company's Share(s) of the issued and paid-up share capital of the Company as at the point of purchase. The purchase of our Shares under the Proposed Share Buy-Back will be carried out through Bursa Securities via stockbroker(s) appointed by our Board.

The Proposed Share Buy-Back will be undertaken in accordance with Sections 112, 113 and 127 of the Act, Chapter 12 of the Listing Requirements and any prevailing laws, guidelines, rules and regulations issued by the relevant authorities at the time of purchase. The approval from the shareholders for the Proposed Share Buy-Back will be effective immediately upon the passing of the ordinary resolution relating to the Proposed Share Buy-Back at the AGM of the Company to be convened and will continue in force until:

- i. the conclusion of the next AGM of the Company at which such resolution was passed at which time the said authority shall lapse unless by an ordinary resolution passed at that meeting, the authority is renewed, either unconditionally or subject to conditions; or
- ii. the expiration of the period within which the next AGM of the Company is required by law to be held; or
- iii. revoked or varied by ordinary resolution passed by the shareholders of the Company in a general meeting,

whichever is earlier.

The shareholders' approval for the Proposed Share Buy-Back does not impose an obligation on the Company to purchase its own shares on Bursa Securities. The Proposed Share Buy-Back will allow the Board to exercise the power of the Company to purchase its own shares at any time within the abovementioned time period.

2.2 Rationale of the Proposed Share Buy-Back Mandate

The Proposed Share Buy-Back Mandate will enable JTB to utilise its surplus financial resources, which is not immediately required for other uses, to purchase JTB Shares from the market. The share buy-back may stabilise the supply, demand and price of JTB Shares traded on Bursa Securities, thereby supporting the fundamental value of the Shares

Where the Shares bought are retained as Treasury Shares, the Board would have an option to distribute the Treasury Shares as dividends to reward shareholders and/or resell the Treasury Shares at a higher price on Bursa Securities and utilise the proceeds for any feasible investment opportunity arising in the future, or as working capital.

2.3 Maximum Limit

The maximum aggregate number of Shares, which may be purchased by the Company, shall **not exceed ten per cent (10%)** of the issued shares at any point in time.

As at the LPD, the issued share capital of the Company is RM176,815,544.00 comprising 310,470,986 JTB shares. Pursuant thereto, assuming no additional JTB shares are issued, a total of **31,047,098.60** Shares, representing **ten percent (10%)** of the total number of issued Shares, may be purchased by the Company pursuant to the Proposed Share Buy-Back.

The actual number of Shares to be purchased and timing of such purchases will depend on, amongst others, market conditions and sentiments, as well as the retained profits and financial resources available to the Company at the time of the purchase.

2.4 Public shareholding spread

The Proposed Share Buy-Back will be carried out in accordance with the prevailing laws at the time of the purchase including compliance with the 25% public shareholding as required under Paragraph 8.02(1) of the Listing Requirements.

Based on the Record of Depositors of the Company as at the LPD, the public shareholding spread of the Company was approximately **44.72%**.

The Board will be mindful in ensuring that the minimum public shareholding spread of 25% is met and maintained before making any purchases of the Shares.

2.5 Maximum amount of funds to be allocated and source of funds

Pursuant to Paragraph 12.10(1) of the Listing Requirements, the listed issuer must ensure that the Proposed Share Buy-Back is made wholly out of the retained profits of the Company. Based on the latest audited financial statements of the Company for the FYE 31 December 2018 and latest unaudited financial statements of the Company for the twelve (12)-month FYE 31 December 2019, the accumulated losses/ retained profits of the Company are as set out below:

Company Level*	Audited as at 31 December 2018 RM	Unaudited as at 31 December 2019 RM
(Accumulated losses)/ Retained profits	137,539,191	163,288,577

The Company shall ensure that the maximum funds to be utilised for the Proposed Share Buy-Back shall not exceed the aggregate of the retained profits of the Company in accordance with Paragraph 12.10(2) of the Listing Requirements.

The Company proposes to utilise internally generated funds of the Group to finance the Proposed Share Buy-Back. The amount of internally generated funds to be utilised will only be determined later at the time of purchase, depending on, amongst others, the availability of internally generated funds, the actual number of Shares to be purchased and other relevant cost factors.

The Proposed Share Buy-Back is not expected to have a material impact on the cash flow position of the Company. In addition, the Board will ensure that the Company satisfies the solvency test as stated in Section 112(2) of the Act before implementing the Proposed Share Buy-Back.

2.6 Treatment of Shares Purchased

Shares that are purchased pursuant to the Proposed Share Buy-Back may be dealt with by the Directors in the following manner:-

- a) cancel the Shares so purchased; or
- b) retain the Shares so purchased as Treasury Shares; or
- c) retain part of the Shares so purchased as Treasury Shares and/or cancel the remainder of the Shares/Treasury Shares; or
- d) distribute all or part of the Treasury Shares as dividends to shareholders; or
- e) resell all or part of the Treasury Shares or any of the Treasury Shares on Bursa Securities in accordance with the relevant rules of Bursa Securities; or

- f) transfer all or part of the Treasury Shares or any of the Treasury Shares for the purposes of or under an employees' share scheme; or
- g) transfer all or part of the Treasury Shares or any of the Treasury Shares as purchase consideration; or
- h) sell, transfer or otherwise use the Treasury Shares for such other purposes as the Minister may by order prescribe.

Pursuant to Section 127(5) of the Act, shares that are purchased by a company unless held in treasury, shall be deemed to be cancelled immediately on purchase. Further, Section 127(8) of the Act provides that the holder of treasury shares shall not confer: -

- a) the right to attend and vote at meetings and any purported exercise of such rights is void; and
- b) the right to receive dividends or other distribution, whether cash or otherwise, of the company's assets including any distribution of assets upon winding-up of the company.

Where the Directors intend to retain the Purchased Shares as Treasury Shares, cancel the Purchased Shares, or both, an appropriate announcement will be made to Bursa Securities as and when the Proposed Share Buy-Back is exercised.

In the event JTB wishes to purchase its own shares, JTB is required to release an immediate announcement on the day the purchase is made.

2.7 Purchase of Price

Pursuant to Paragraph 12.17 of the Listing Requirements, the Company may only purchase its own shares listed on Bursa Securities at a price which is not more than 15% above the five (5) day VWAP of the shares immediately preceding the date of any purchase(s).

Pursuant to Paragraph 12.18 of the Listing Requirements, the Company may only resell or transfer the Shares purchased which are held as treasury shares on Bursa Securities at:

- a) not less than the weighted average market price for the Shares for the five (5) market days immediately prior to the resale; or
- b) a discounted price of not more than five percent (5%) to the weighted average market price for the Shares for the five (5) market days immediately prior to the resale provided that:-
 - i. the resale takes place no earlier than thirty (30) days from the date of purchase; and
 - ii. the resale price is not less than the cost of purchase of Shares being resold.

The Proposed Share Buy-Back Mandate will be effected through JTB's appointed stockbroker.

2.8 Implication of Rules

There is no implication with the regards to the Rules on the Company and the shareholders arising from the Proposed Share Buy-Back in the event the Proposed Share Buy-Back is implemented in full.

2.9 Previous purchases, resale and/or cancellation of treasury shares

Given that this is the first time the Company is seeking authority from the shareholders for the Proposed Share Buy-Back, the Company does not currently hold any treasury shares and has not purchased, resold, transferred or cancelled any Shares during the last twelve (12) months preceding the LPD.

3. POTENTIAL ADVANTAGES AND DISADVANTAGES OF THE PROPOSED SHARE BUY-BACK MANDATE

The potential advantages and disadvantages of the Proposed Share Buy-Back Mandate to the Company and the shareholders are as follows:

Potential advantages

- i. The Proposed Share Buy-Back allows the Company to take preventive measures against speculation particularly when the Shares are undervalued which would in turn, stabilise the market price of the Shares and hence, enhance investors' confidence;
- ii. If the Shares purchased are retained as treasury shares, the Board may distribute the treasury shares as share dividends and/or issued under an employees' share scheme to reward the shareholders of the Company and/or the eligible persons;
- iii. The Company will have flexibility in attaining the desired capital structure, in terms of debt and equity composition and size of equity; and
- iv. The resultant reduction of share capital base (in respect of Shares purchased which are then cancelled) is expected to enhance the EPS and may improve the NA per Share of the Group (all things being equal), hence making the Shares more attractive to investors.

Potential disadvantages

- i. The Proposed Share Buy-Back will reduce the financial resources of the Group and may result in the JTB Group forgoing of better investment opportunities that may emerge in the future; and
- ii. The Proposed Share Buy-Back may result in the reduction of financial resources available for distribution of cash dividends to shareholders in the future as the Proposed Share Buy-Back can only be made out of the retained profits of the Company.

The Board will be mindful of the interest of the Company and the shareholders when undertaking the Proposed Share Buy-Back and in the subsequent resale of treasury shares on Bursa Securities, if any.

4. EFFECTS OF THE PROPOSED SHARE BUY-BACK

4.1 Share capital

The proforma effects of the Proposed Share Buy-Back on the number of issued and paid-up share capital of the Company are as follows:

	No. of Shares
Issued shares as at the LPD	310,470,986.00
Maximum number of Shares that may be purchased and cancelled pursuant to the Proposed Share Buy-Back (1)	(31,047,098.60)
Total number of issued Shares after the Proposed Share Buy-Back	279,423,887.40

Note:

(1) Assuming all Shares purchased are cancelled.

The effect of the Proposed Share Buy-Back on the issued share capital of the Company will depend on the intention of the Board with regards to the treatment of the Shares purchased. If the Shares purchased are cancelled, the issued share capital will be reduced by the number of Shares so cancelled. Conversely, if the Shares purchased are retained as treasury shares, resold or distributed to shareholders, the Proposed Share Buy-Back will not have any effect on the issued share capital of the Company. Nevertheless, certain rights (such as voting rights) attached to the Shares purchased will be suspended when the Shares purchased are held as treasury shares.

4.2 NA, NA per Share and Gearing

The effect of the Proposed Share Buy-Back on the NA of the Group will depend on the actual number of shares to be purchased, the purchase price of the shares, the effective funding cost to the Group to finance the share buy-back, if any, or any loss in interest income to the Company.

The NA would decrease if the shares purchased are retained as treasury shares due to the requirement for treasury shares to be carried at cost and be offset against equity, resulting in a decrease in the NA by the cost of the treasury shares.

If the Shares purchased are resold on Bursa Securities, the NA per Share would increase if the Company realises a gain from the resale, and vice-versa. If the Shares purchased are subsequently distributed as share dividends, there will be no effect on the NA per Share of the Group.

If the Shares purchased are cancelled, the Proposed Share Buy-Back will reduce the NA per Share if the purchase price per Share exceeds the NA per Share at the time of purchase, and vice-versa.

The Company does not intend to fund the Proposed Share Buy-Back via external bank borrowings. Nevertheless, all else being equal, assuming that the treasury shares are being retained by the Company and no borrowings are being utilised to fund the purchase of the Shares, the Proposed Share Buy-Back may increase the gearing of the Group as the equity will be reduced by the cost of shares acquired.

4.3 Earning and EPS

The effects of the Proposed Share Buy-Back on the earnings and EPS of the Group will depend on the number of Shares purchased, the prices paid for such Shares, the effective funding cost to finance the purchase of such Shares, if any, or any loss in interest income to the Group. Nevertheless, all things being equal, assuming that the treasury shares are retained, the Proposed Share Buy-Back is expected to increase the EPS of the Group as the treasury shares held will not be taken into account in calculating the total number of issued Shares.

If the Shares purchased are cancelled, the number of Shares applied in the computation of EPS will reduce and accordingly, all things being equal, the Proposed Share Buy-Back will increase the EPS of the Group.

If the Shares purchased are resold, the extent of the impact to the EPS of the Group will depend on the actual selling price, the number of treasury shares resold and the effective gain on resale and any funding cost arising from the Proposed Share Buy-Back.

4.4 Working Capital

The Proposed Share Buy-Back will reduce the working capital and cash flow of the Group, the quantum of which depends on, amongst others, the number of Shares purchased, the purchase price of the Shares and funding cost, if any. For Shares purchased which are kept as treasury shares, upon its resale, the working capital and cash flow of the Group will increase assuming that a gain has been realised. The quantum of the increase in the working capital will depend on the actual selling price of the treasury shares and the number of treasury shares resold.

4.5 Dividends

The Proposed Share Buy-Back is not expected to have any impact on the policy of the Board in recommending dividends, if any, to the shareholders. Nonetheless, if the Shares purchased are retained as treasury shares, the treasury shares may be distributed as dividends to the shareholders, if the Company so decides.

If the Shares purchased are cancelled, the Proposed Share Buy-Back will have the effect of increasing the dividend rate of the Company as a result of the reduction in the number of issued Shares.
