PART B

**EXPLANATORY NOTES PURSUANT TO APPENDIX 9B OF THE LISTING REQUIREMENTS
OF THE BURSA SECURITIES**

B1. Review of Group Performance

a) Current Year Quarter compared with Preceding Year Corresponding Quarter

The Group has recorded a revenue of RM63.473 million and profit before tax of RM8.167 million for the third quarter itself as compared to preceding year corresponding quarter of RM64.746 million and RM9.607 million respectively. A decrease in revenue of RM1.273 million as compared to the 3rd quarter of the preceding year due to demand decreases in various industries. As a result, profit before tax decreased by RM1.44 million.

For the tin manufacturing industry, the revenue increased by RM2.356 million to RM20.195 million due to demand increase in edible oil industry. However, profit before tax was decreased by RM1.45 million to RM3.125 million due to increases in operating costs and reversal of provision for doubtful debts in previous year's quarter.

As for the Food and Beverage ("F&B") industry, the revenue decreased by RM3.63 million to RM43.277 million. The profit before tax, however, decreased marginally by RM0.372 million to RM5.316 million. Overall, the demand & cost of production are well-maintained as compared to preceding year corresponding quarter.

b) Current Year-To-Date compared with Preceding Year-To-Date

The Group has recorded a revenue of RM176.807 million and profit before tax of RM22.22 million for the 9 months period ended 30 September 2013 as compared to preceding year-to-date of RM180.434 million and RM20.279 million respectively. Despite a minor reduction in revenue of RM3.627 million as compared to the period of the preceding year, profit before tax increased by RM1.941 million, as the Group managed to take advantage of the higher efficiency in its operations during this quarter.

For the tin manufacturing industry, the revenue increased by RM3.885 million to RM63.435 million due to higher demand in biscuit and edible oil industries, while the profit before tax increased by RM1.885 to RM11.07 million due to the increased revenue.

As for the F&B industry, the revenue decreased by RM7.512 million to RM113.372 million mainly due to lower demand in the dairy market. Profit before tax increased marginally by RM0.073 million to RM12.05 million due to higher efficiency in its operations.

B2. Variation of Results against Preceding Quarter

For the current quarter under review, the Group's profit before tax increased by RM0.403 million to RM8.167 million as compared to RM7.764 million in the preceding quarter ended 30 June 2013.

a) Tin Manufacturing Industry

The slight decrease in profit before tax of RM0.95 million to RM3.125 million due to gain on disposal of assets in previous year.

b) F&B Industry

The increase in profit before tax of RM1.245 million to RM5.316 million was mainly due to demand increases for the current quarter under review as compared to preceding quarter.

**NOTES TO THE FINANCIAL INFORMATION
 FOR THE THIRD QUARTER ENDED 30 SEPTEMBER 2013 (UNAUDITED) (cont'd)**
B3. Prospects of the Group
a) Tin Manufacturing Industry

Raw materials prices are expected to increase marginally in the near-term. However, demand is expected to maintain and remain stable.

The Group will continue to maintain its profitability for the year of 2013 despite a challenging global economic situation.

b) F&B Industry

Although the milk powder prices have slight fluctuation, we do not foresee any significant changes of the prices in the near future.

The demand for the year 2013 is expected to be strong and this segment will continue to be profitable.

B4. Revenue or Profit Estimates

This is not applicable to the Group for the current financial reporting period under review.
